BIG FACTS

Marcus Rashford's Social Activism is now studied as part of the GCSE syllabus

Marcus Rashford plays for Manchester United and the England national team, making him one of the world's youngest and most famous footballers. Marcus' charity work has helped to raise millions for charity FairShare during the COVID-19 lockdown; he also wrote a letter to the Prime Minister urging the Government to reconsider not supplying meals for underprivileged children during the summer of 2020, a decision which was eventually overturned. His tireless work was rewarded with an MBE and the respect of the nation.
